Minneapolis, MN
• Bachelor of Science in Urban Studies and Bachelor of Science in Environmental Geography with a Minor in Geographic Information Science.

EXPERIENCE

GIS Technician at Minnesota Geospatial Information Office December 2023 - Present
St. Paul, MN

- Developed Python Azure Function applications to automate geospatial metadata validation and streamline data publishing to the Minnesota Geospatial Commons.
- Designed and implemented PostgreSQL database structures and migration scripts to support geospatial resource tracking.
- Communicated with agency partners to onboard datasets and ensure compliance to the new Minnesota Geospatial Commons.
- Digitized detailed landfill features across Minnesota using COGO and PLSS reports.
- Collaborated on an extensive map portfolio for use by the Governor’s Office.
- Developed interactive web map applications in ArcGIS Online, applying Arcade expressions and visualization technique to create engaging and informative interfaces.
- Updated and maintained ArcGIS Pro tool to assign ownership to parcel data.

Teaching Assistant at University of Minnesota September 2023 - December 2025
Minneapolis, MN

- Guided lab sections and supported students working with desktop and web GIS.
- Answered technical and cartographic questions to reinforce spatial analysis and visualization skills.
- Assisted professors with grading exams and managing course resources efficiently.

Traffic Analyst at Alliant Engineering November 2021 - December 2023
Minneapolis, MN

- Independently deployed and maintained traffic counting cameras around Minnesota.
- Created Python scripts for automated ArcGIS Pro layout creation.
- Organized traffic data in Microsoft Excel spreadsheets for client reporting.
- Designed traffic project proposal maps with ArcGIS Pro and ArcGIS Online.
- Updated and maintained a large PostgreSQL database of traffic data.

Code Enforcement Intern at City of Robbinsdale July 2021 - October 2021
Robbinsdale, MN

- Assisted with the inspection of properties for city code compliance.
- Managed citizen complaints about overgrown vegetation and other city code violations.
- Logged cases, deadlines, and fees in Excel and BS&A.
- Coordinated with city contractors to resolve overdue code violations.

Consulting Intern at Civitas Consultants LLC May 2020 - May 2021
Minneapolis, MN

- Created an informational packet to help businesses during the COVID-19 pandemic.
- Collaborated with a team to create informational materials for citizens and officials.
- Maintained communication with community members via email, phone calls, and meetings.

Student Intern at Dinkytown Business Alliance February 2020 - May 2020
Minneapolis, MN

- Organized a business mailing list to improve communication with business owners.
- Strengthened outreach efforts through collaboration with community leaders.

Research Intern at Minnesota Population Center February 2019 - May 2019
Minneapolis, MN

- Digitized and documented historical quantitative data for research projects.
- Self-managed weekly research workload.
